

14 years of PRD diploma course for equity in Health

In 2006, we started an ambitious course for beginners to enter into a professional world in the product development that meets public health needs.

Since then the course had been kept opening for all the young stars who had a dream to normalize health inequity.

At the closing opportunity, Nagasaki University appreciates this historical achievement and gives sincere gratitude to all the contributors.

Date : 2020.2.19(Wed)

Location : Global Health General Research Building 1F seminar room, Nagasaki University
