

# International Symposium

## Health Impact of Climate Change and Air Pollution

**Date :** 2011. 3. 7 (Monday) 09:00~ 18:00

**Place:** Graduate School of Public Health, Seoul National University, Korea  
Building 221 Room 113 - 09:00~13:00  
Building 221 Room 201 - 13:00~18:00

\*This symposium is supported by Global Research Laboratory (GRL) from Korea National Research Foundation.

### Session I - Air pollution and Health (Room # 113)

09:00~09:30	Registration
09:30~09:40	Opening Remarks Domyung Paek (Dean, Graduate School of Public Health, Seoul National University)
09:40~10:20	Climate and air pollution effects on health in the East Asia Ho Kim (Graduate School of Public Health, Seoul National University)
10:20~11:00	Effects of fine particulates on human health in Taiwan Leon Guo (National Taiwan University)
11:00~11:40	Source-specific health risk assessment of air pollution Chang-fu WU (National Taiwan University)
11:40~12:20	Method for projecting climate change impact due to direct heat effect Yasushi Honda (Tsukuba University)
12:20~12:30	Conclusion of the morning session
12:30~14:00	Lunch

### Session II - Climate Change and Health (Room # 201)

14:00~14:40	Climate, Flooding and Seasonality of Cholera Masahiro Hashizume (Nagasaki University)
14:40~15:20	Increasing malaria in Papua New Guinea: Counterevidence against a positive effect of climate changes Jae-Won Park (Gachon University)
15:30~16:10	Current status and adaptation on impact of climate change on human health in developing countries: Papua New Guinea Hae-Kwan Cheong (Sungkyunkwan University)
16:10~16:50	Effects of PM <sub>2.5</sub> chemical constituents on mortality in Seoul, Korea Seung-Muk Yi (Seoul National University)
16:50~17:30	Outdoor temperature and cardiovascular health effect Yun-Chul Hong (Seoul National University)
17:30~17:50	Conclusion

This international symposium is organized by the research team of  
Graduate School of Public Health, Seoul National University.
